**Work Order Description**

2 of 2 visits, Fall/ Winter Visit, do not collect - cust spoke of an expired quote for float switch- would like that re-evaluated and possibly changed same day if possible

**Work Summary**

Dispatched for 2 system heat check. Homeowner needed emergency pan switch and ss2 replaced from recommendations last visit went ahead and replaced both while onsite. Checked blower amps bearings and wheel. Checked inducer motor amps the upstairs system sounds as if the bearings were going out on that inducer motor could present an issue in the future and cause system to not heat. Checked draft pressures. Cleaned flame sensor and burners. Checked for cracks in the heat exchangers and found none at this time. Checked igniter ohms. Checked gas pressures. Checked temp rise. Units are running at time of departure
